

Assignment Verification Guidelines

1. You can check the **README.md** file for instructions on running the code interactively, file-wise, and with tests.
2. I have run the tests, and the test outputs are printed in a file named **test_results.txt** in the root folder. You can also run the tests by following the **README.md**. Besides, you can get an idea of the overall test design from **test_design.md**.
3. You can also clone and run the project from github using the following url:
<https://github.com/fraxhost/lox-interpreter-in-scala>
